# The Group

Mediawan is an independent European audiovisual content studio with international ambitions.

Founded in 2015 and directed ever since by Pierre-Antoine Capton, the group brings together best-in-class talents from around the world in the production, distribution and broadcasting of all their content (fiction, broadcast, documentaries, cinema, animation, etc.). A collective that combines freedom, high creative standards and unique perspectives, in order to reveal and highlight surprising, emotionally charged stories that have made a mark on our era.

## **Mediawan**thematics

Mediawan Thematics is the 3rd largest publisher of subscription TV channels in France. The Group offers strong brands and themes for all audiences in the various francophone markets (particularly in Europe and Africa). These channels are available from all the main TV service providers and national telecoms companies. In Belgium, the Group publishes AB3 and ABXPLORE, two channels that are free. Mediawan Thematics also publishes the associated digital services in these segments, including a large number of YouTube channels with original and exclusive content.

Besides that, Mediawan Thematics is working with all the new pure players in digital content, so as to extend the broadcasting of its channels and content and develop new offers in a delinearized perspective. The Group launched three new SVOD channels: EXPLORE, dedicated to the documentary genre, KITCHEN MANIA for all the cooking fans out there, and INSOMNIA, which offers the very best in horror movies.

Finally, the Group is taking advantage of new opportunities to expand outside Europe, through worldwide distribution of its channels and offers, as well as incoming projects.
